THE TRAFFIC WORLD

VOLUME LXVI

July to December, Inclusive, 1940

PUBLISHED BY
THE TRAFFIC SERVICE CORPORATION
CHICAGO, ILL.

Mr. Traffic Executive:

A double service for you!

Two Services are now available to you—services which are particularly strategic in this hectic period of increasing demands on you and your department.

1. If you need experienced, capable help—haven't time to train your own present aids—ask our Placement Department to suggest some good men who are already trained and experienced. We are in contact with many such men—and the service is free to you and to the men.

2. If you have some ambitious, capable chap whom you want to build for promotion and responsibility, let us train him in his spare time in Traffic Management. Usually only a suggestion from you to him is all that is necessary—or your firm may wish to help him bear the small cost of the training.

Many Traffic executives use both services—have us locate a good man for immediate service while their juniors are training for future promotion. That may be the solution for you.

We invite your request for further information—without obligation.

FREIGHT RATE AND CLASSIFICATION

CHANGES ARE PROMPTLY REPORTED IN

THE TRAFFIC BULLETIN

You will find the TRAFFIC BULLETIN a dependable aid in keeping your tariff file up-to-date and in good order, and a reliable source of advance information on all changes in rates.

TARIFF CHANGES

The TRAFFIC BULLETIN will give you each week an abstract of every—rail and motor—freight tariff filed with the Interstate Commerce Commission so that you can make a check of the commodities in which you are interested and obtain copies of the tariffs desired from the carriers before their effective dates.

Abstracts of currently filed U. S. Maritime Commission tariffs and air express tariffs are also printed.

The check on your tariff file is made complete by publication of short notice permissions, fourth section applications and orders, and abstracts of tariffs returned by the I. C. C. and the Maritime Commission.

Motor and rail tariff abstracts are classified under commodity headings. If your tonnage is shipped under class rates, you will be especially interested in the abstracts appearing under the heading "Classes and Commodities," which you will want to check in conjunction with the abstracts printed under "Classifications and Rules." You will also want to consult "Special or Blanket Supplements."

ADVANCE NOTICE

Advance notices of impending rate changes are contained in the dockets of various rate committees, which appear nowhere else in such complete and convenient form. Rate committees generally allow twelve days to elapse between the dates of their dockets and the closing of their files, so that you may enter your concurrences or protests. If the matter is set for hearing, notice of that hearing appears, giving you, if you desire, a chance to appear. Disposition notices of a number of the committees are printed regularly, so that you may know the decision arrived at by the committee.

If objections to tariffs filed with the Commission or the U. S. Maritime Commission seem weighty enough to those bodies, a suspension may result, whereupon notice to that effect appears. If this order is vacated, notice appears under "Suspension Orders Vacated."

In addition to the rate committee dockets, you will receive the dockets of the Consolidated Classification Committee as they are issued by the Committee.

One of the most valuable features of the TRAFFIC BULLETIN is the regular and prompt publication of embargo notices.

With all traffic changes promptly recorded and properly classified in the TRAFFIC BULLETIN you can be absolutely sure that no change in rates, no change in classification, no change in transit privileges, and no change in charges and regulations can possibly take effect without your knowing about it in advance. In no other one service can you get all this dependable traffic information.

The cost is small when compared with the value of the complete weekly service you receive—only $25.00 a year and, if desired, the service may be ordered on a quarterly basis at $6.25 a quarter. Without any cost or obligation on your part we will be pleased to send you a sample copy—why not write for it today?
